To whom it may concern

I know Dr. Gerald Wissel since 2017, as he worked as an external consultant, to help us to reorganize thyssenkrupp Marine Systems.

Main part of his assignment was to structure the new tk MS organization, describe tasks and verifiability of all organizational units and developed procedures and practices with the board and extended management.

Based on his experience and assertiveness, he managed the process and gave advice for the new setup. Gerald is an outstanding consultant with talent to combine strategic visions with practical implementation know-how. He is a partner to discuss long-term change projects and quick fix solutions at the same time.

He finished the project on time, within budget and delivering the expected results and is an experienced project manager.

Gerald is highly trust-worthy and honest. I can recommend him for those projects. His dedication was a pillar for the success of the project.

Kind regards

Dr. Rolf Wirtz
CEO thyssenkrupp Marine Systems GmbH
